

Application News

From Ramsey Products

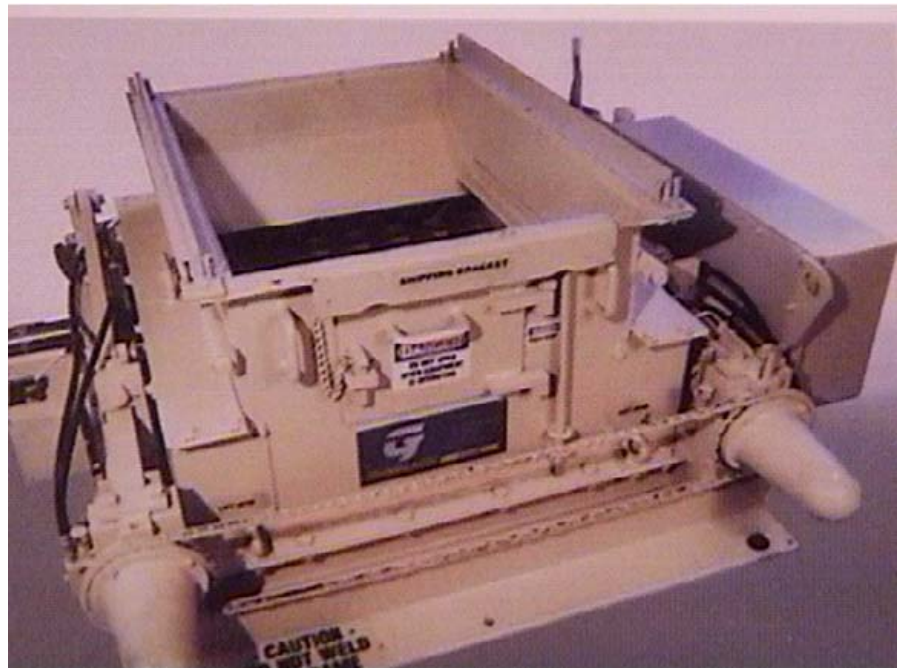

Ramsey Delivers Crushing Power.

Application: Rotating Drum Coal Crusher

Components

Selected:

- Ramsey RPV1616 Chain
- 2" Pitch x 4" Wide
- Full Strength or Weakened Link Designs.
- RPV Sprockets with hardened teeth.

Description: This equipment is used in large scale coal mines to reduce the size of coal and ore removed from the mines by bulk mining equipment. Ramsey RPV Drives are utilized to power the robust rollers that are required to crush the material to smaller size for handling and transport.

Contact Ramsey Products for assistance with your application. We will provide a no obligation review of your drive requirements.
