Automating Auto Parts Production

Application:

- Conveying System for Producing and Delivering Machined Automotive Parts

Components Selected:

- Dual Ramsey silent conveyor chains
- Single pin chain design

Description:

This system uses dual Ramsey conveying chains to transport automotive parts through various machining operations. Once the parts are completed, the system uses automated lift stations and robotics to transport parts to an assembly operation. Ramsey single-pin silent chain was selected for its durability and smooth operation.
