DUPLEX SILENT CHAIN FOR SERPENTINE DRIVE PATH

Application:

- Serpentine drive path for calendar operation.

Components Selected:

- Ramsey duplex chain, 1/2" pitch x 2" width. Single row and two row sprockets to run on appropriate side of chain to achieve desired drive path.

Description:

A major plastics extrusion, sheet processing operation incorporates Ramsey Silent Chain into their design for reliable drive performance. The Ramsey silent chain provides a positive, efficient drive with the least possible speed variations that would impact the quality of the extruded sheet.

Ramsey silent chain is the choice of many OEM providers to the rubber / plastics industry.

Contact Ramsey Products for assistance with your application. We will provide a no obligation review of your drive requirements.
