From Ramsey Products

## TOO HOT TO HANDLE??

---

Not for Ramsey's conveyors! Direct from the mold, red hot bottles are transferred directly onto Ramsey's single pin conveyor chain. Our single pin conveyor chain provides the smooth running, consistent, long life conveyor that is required by glass ware manufacturing operations.

*Smooth transfer of fragile glass products from the hot end to the annealing process.*

### Ramsey Products Conveyor Chains

- Available in 1/2" pitch or Extended pitch versions.
- Ultra Life for improved performance.
- Single pin and two pin chains.
- Low profile to reduce bearing stress on wear plates.
- Extended pitch chains reduce conveyor weight.
- Stainless steel available for demanding applications.
- Hardened stainless steel links and pins for the most demanding applications. Temperature resistant to 1600 deg. F.

### Why Ramsey Silent Chain Conveyors?

- Durable tough hardened steel links and case hardened pins.
- Flatness and uniformity of surface.
- Nearly consistent surface velocity.
- Hardened steel components are heat resistant.
- Economic choice due to long life, low maintenance.

Contact Ramsey Products for assistance with your application. We will provide a no obligation review of your conveyor requirements.
