Patented Manufacturing Process Uses Ramsey Silent Chain

Application: Production of Lead Panels for Use in Automobile Batteries

Components Selected:

- Custom -made 3/8" pitch x 1/2" wide silent chain
- Five unique / dedicated link designs
- Ramsey sprockets

Description:

A leader in the production of automotive battery manufacturing equipment approached Ramsey Products for assistance in developing a series of unique, new silent chains. The chains are used to continuously process lead sheet into expanded metal panels. Ramsey and the customer worked together to design (5) unique link profiles, and (10) unique chain configurations, for use in this demanding application.

Contact Ramsey Products for assistance with your application. We will provide a no obligation review of your drive requirements.
