

HyperLink Chain Drive Systems

DRIVE FEATURES:

- Up to 99% Efficient
- Fully Customizable
- Large Center Distances
- Optimum / Exact Drive Ratios
- Built to Exact Space Requirements
- Capable of Loads of 3,000 HP (2240 kW) and speeds exceeding 7,000 FPM (35.5 M/s)
- Low Maintenance
- No Minimum Order Quantity

WHY CONSIDER A HYPERLINK™ DRIVE?

- Are you faced with coupling together multiple components to achieve the speeds and drive ratios you require?
- Do you find it difficult to find an off the shelf speed reducer that will accommodate your center distance?
- Or, are you tasked with designing an enclosure and lubrication system for a chain drive?

If so, a Ramsey HyperLink drive may be the answer. Ramsey Products has designed and manufactured silent chain drives and sprockets since 1923.

For more information contact Ramsey.
