Snow Blower OEM Selects Ramsey Drive System

Application:

- Heavy Duty Snow Blower
- Diesel Engine Driven.
- 1500 RPM Input w/ 1.13:1 Drive Ratio.

Components Selected:

- Ramsey RPV610 chain.
- Ramsey RPV sprockets.
- Complete Drive Case Assy.

Description: A major OEM of snow removal equipment for municipalities and airports selected a reliable Ramsey RPV drive case assembly to power their heavy duty snow blower. Ramsey worked closely with the OEM engineers to design and manufacture a complete drive system to transfer the required hp from the tractor to the snow blower. The case had to fit within a specific envelope of space with an approximate 24" center distance between sprockets. Many customers are now enjoying years of reliable service from their snow removal machines equipped with Ramsey RPV drive systems.

Contact Ramsey Products for assistance with your application. We will provide a no obligation review of your drive requirements.
